Jas. K. Smith, Mrs. Emma Ah Dudi  
and Kim Sing.

## SUGAR FOR OUR SOLDIERS

GERMANY IS EXPERIMENTING  
UPON TROOPS.

It Greatly Enhances the Powers of En-  
durance and is Regarded Now as a  
Valuable Strength Giver.

In a report to the Secretary of Agri-  
culture, made by Special Agent Saylor,  
on the production of domestic sugar,  
attention is called to the question of in-  
cluding sugar as part of the ration for  
troops serving in the field. Mr. Saylor  
says he is watching with interest the  
investigations being made in the United  
States and in Europe, especially in Ger-  
many, with reference to the value of  
sugar as a muscular strength giver. A  
great many experiments have been  
made, and all appear to show that sug-  
ar administered to workmen, soldiers  
and others of whom great muscular en-  
durance is required greatly enhances  
their powers of endurance. Serious con-  
sideration is being given to the subject  
with reference to its introduction to the  
German army. Mr. Saylor quotes a  
recent report made from Berlin to the  
Louisiana Sugar Planters' Association,  
in which it is said that the experiments  
with respect to the addition of sugar to  
soldiers' fare are to be continued in the  
German army this year, and on a large  
scale. A whole army corps will get sug-  
ar during the next maneuvers, and it  
is thought that in case these experi-  
ments produce good results the general  
introduction of sugar into the bill of  
fare of American soldiers will probably  
be decided upon.

"Some men of science," says Mr. Say-  
lor, "go so far as to say that all foods  
taken into the body, such as starches,  
fats and albumens, are transformed in-  
to sugar before the process of assimila-  
tion in the body takes place or is pos-  
sible. It is well established by experi-  
ence that sugar as a food has vitalizing  
power. This fact once established for  
it through the extensive experiments  
now being conducted, it will readily be  
seen that on account of the cheapness,  
palatability and digestibility of sugar  
it will at once become an important  
factor in the army ration and in the  
food of all others whose activities of  
life need this strength giving power.  
Here," says Mr. Saylor, "would open a  
field for an increase in the demand of  
this commodity that can be measured  
by imaginative conjecture only."

### WHAT DID IT.

"I have been subject to neuralgia  
for a number of years. It affected not  
only my head and face, but my  
stomach and back. After taking  
Hood's Sarsaparilla a short time I was  
relieved. I have now taken six or  
eight bottles, and seldom feel any  
symptom of neuralgia." M. H. MIN-  
CHER, Elsinore, California.

HOOD'S PILLS are the pills to take  
with Hood's Sarsaparilla. 25c. 2

### A GOOD THING.

There's one good thing when they feel  
dry  
That business men cannot pass by.  
For far and wide it's fame you hear,  
They stop to drink of "Rainier" beer.  
On draught or in bottle at Criterion.

"There are none so blind as those  
who will not see!"

There are some people who cannot be  
convinced that white is white and black  
is black, because they are determined  
to have their own way about it. Very  
good. Such people go through life miss-  
ing the great truths and the greatest  
happiness as well as comfort.

There are others again who are con-  
vincible. It is to the men of this class  
that we like to talk about the merits of  
our clothing.

They are better than nine-tenths of  
the made-to-measure clothes turned out  
in this city and the equal of the other  
tenths.

Alfred Benjamin & Company's clothes  
cost about half the price of made-to-  
order clothes and have every desirable  
attribute of the very best made-to-  
measure garments, besides embodying  
many unmatchable features strictly  
their own. That is why we say investi-  
gate the merits of the clothes bearing  
this label before going to a tailor. You  
risk nothing and stand to win a lot.
